FROM SEED TO FINISH, WE DO IT ALL.
A tremendous opportunity for your company

At Timber Products Company, we focus on working with individual customers to create innovative, cost-effective solutions for their specific needs. As a fully integrated company, we can offer our customers greater flexibility, with shorter lead times and consistent high quality. Since we control the entire manufacturing process, you can always count on us to deliver.

In fact, we offer one of the most comprehensive ranges of products and services available anywhere. That all adds up to a tremendous opportunity for your company.

- We practice sustained-yield forestry on more than 114,000 acres of company-owned forestlands.
- We use chips and veneer from those trees to manufacture a wide range of our own substrates.
- We have ten manufacturing facilities throughout the United States where we do all our own lay-ups, sanding, laminating and finishing.
- We offer a wide range of custom-cut, color-matching and finishing services.
- We have the most responsive and experienced sales and customer service team in the industry.
- We offer reliable, coast-to-coast shipping and delivery through our company-owned TP Trucking.
- TP Global provides expert service for all your import and export needs, from commodity panels to specialty products.
A Full Range of Products and Services

We specialize in hardwood plywood and wood panels with decorative overlays. From veneer to ultralight MDF to particleboard, we offer an incredible variety of wood products. And if you don’t see exactly what you’re looking for, we can custom manufacture what you need.

All of our products are responsibly created with the environment in mind. We continually improve processes to reduce waste. We use no-added formaldehyde (NAF) based resins or ultra-low-emitting formaldehyde (ULEF) resins to reduce emissions. And our prefinished panels emit zero formaldehyde because of the UV finishing technology we use.

Timber Products Company
• Hardwood Plywood
• Hardwood Lumber
• Hardwood Veneer
• Softwood Plywood
• Softwood Veneer
• Particleboard

Ampine Division
• Ampine Particleboard
• Encore Particleboard
• Apex Composite Panels

TP Global
TP Global leverages both our manufacturing and financial strength to offer beautiful, high-quality imported wood panels at the best prices. We have developed strong partnerships with our carefully selected network of manufacturers around the globe. If a particular exotic species does not grow here, we can get it from overseas. We also bring offshore substrates to our plants and put domestic veneers on those substrates.

MCTC Timberlands
An affiliate of Timber Products, the Michigan-California Timber Company (MCTC) responsibly manages about 114,800 acres of forestland in Northern California. We care not only for our timber, but for wildlife—and in fact, the entire ecosystem.

Spectrum Division
• Architectural Plywood
• Melamine
• Textured Melamine
• Roll Laminates
• Spectraboard
• CustomCuts
• Drawer Sides
• Treadmill Decks

TP Trucking
With TP Trucking, our vertical integration extends to delivering our products exactly where and when you need them. Our full-service trucking expertise has become so trusted that we now have more than 150 owned or owner-operated trucks in our fleet.
